5. Publication and reproduction (extract from the Doctoral Degree Regulation)

§ 19

Publication of the Doctoral Dissertation

- (1) The doctoral dissertation designated as ready for printing shall be lodged with the Faculty within one year after the disputation at the latest and made publicly available to the scientific community in an appropriate way. This requirement is fulfilled if, in addition to the copy required for the examination files, the author also supplies free of charge:
1. four copies, with simultaneous publication in generally accessible electronic media via the university library (in this case the files to be submitted to the university library must be formatted according to its specifications) or via a preprint server; or
 2. four copies, if the main parts of the paper are published in a journal; or
 3. four copies, if a commercial publisher will distribute the dissertation via the bookselling trade and evidence is provided of a minimum edition of at least 150 copies; or
 4. 40 copies in printed or photocopied format for the purpose of distribution.
- Prior to publication in electronic form, the written consent of the supervisor shall be obtained. If electronic publication should not be possible for copyright or patent reasons, initially only an abstract shall be published electronically. After three years have elapsed, the entire work must be published.
- (2) The copies to be supplied shall be made identifiable as a doctoral dissertation.
- (3) If the applicant fails to meet the deadlines laid down in paragraph 1, then all rights acquired as a result of the examination shall lapse. In exceptional cases the Dean may extend the deadline by a maximum of two additional years.
